DOS-0239-a-f (Rev. 02-25)

Preliminary Draft

Local Law No. 2 of 2026

Moratorium on Accessory Structures

March 21, 2026

Subject to Acceptance

Section 1: STATEMENT OF LEGISLATIVE INTENT:

It is the purpose of this moratorium to enable the Town of Farmington to have sufficient time to review the Town's existing zoning law, Chapter 165, Section 10, Definitions and Section 58, pertaining to the regulation of Accessory Structures; and to recommend modifications to the above cited section of the Farmington Town Code regarding such land use operations. This review is in accordance with the goals, objectives and policies contained in the adopted 2021 Edition of the Town of Farmington Comprehensive Plan.

Changes to said regulations would permit an enhanced and easily understood code to achieve the objectives of the Comprehensive Plan and encourage consistent and fair application of law pertaining to such operations. Amendments would be considered regarding further enhancing protection of the environment and possible modifications are felt necessary to permit careful review and approvals of such development that would allow for continued economic development while assuring that such development is compatible with the community and competing land uses.

The Town Board is concerned that approval of expansions to any such operations or approvals of new operations, under the existing law, could negatively impact the value and appearance of the neighborhoods in which they would be situate and of the Town as a whole.

It is, therefore, the intent of the Town Board to temporarily suspend the approval of all expansions to existing such operations and approval of new such operations that do not comply with existing definitions and existing regulations in effect within these two sections of Chapter 165, by allowing for Building Permits to be issued only for those Accessory Structures that do not involve granting of any area variances pending at the time of adoption and enactment of this local law.

Based upon the foregoing, the Town Board wants to ensure that any such expansions to existing such operations or approval of new such operations are reviewed under the new regulations and not under the existing law.
